Office Action Summary	Application No. 09/839,526	Applicant(s) CHARISIUS ET AL.	
	Examiner William H. Wood	Art Unit 2193	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 30 November 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

DETAILED ACTION

Claims 1-136 are pending and have been examined.

Information Disclosure Statement

1. The information disclosure statement filed 11 January 2005 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been completely considered (initialed items indicate documents present; non-initialed items indicate documents not in Application file and thus not considered).

Claim Rejections - 35 USC § 112

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1-136 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Newly added limitation of "automatically" in

Art Unit: 2193

independent claims was not supported by the originally filed disclosure. Appropriate correction required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

5. Claims 1, 2, 9-11, 13-17; 18, 20, 21, 23; 62, 70-72, 74-78; 79, 81, 82, 84; and 123-136 are rejected under 35 U.S.C. 102(e) as being anticipated by **Hicks** (USPN 6,654,954). For brevity the claim rejections will not be repeated here (please refer to previous Office Action of 04 June 2004). Newly added limitations, concerning “automatically modifying source code”, are also disclosed by **Hicks** through at least the previously cited passages for code generation.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 3-4; 22; 24-33; 34-44; 45-51; 52-61; 64, 65; 83; 85-94; 95-105; 106-112; 113-122, 129-135; and 136 are rejected under 35 U.S.C. 103(a) as being unpatentable over **Hicks** (USPN 6,654,954) in view of **Timbol** (USPN 6,237,135). For brevity the claim rejections will not be repeated here (please refer to previous Office Action of 04 June 2004). Newly added limitations, concerning “automatically modifying source code”, are also disclosed by **Hicks** and **Timbol** through at least the previously cited passages for code generation.

8. Claims 5-7 and 66-68 are rejected under 35 U.S.C. 103(a) as being unpatentable over **Hicks** (USPN 6,654,954) in view of **Timbol** (USPN 6,237,135) in further view of **Mansurov et al.** (USPN 6,346,945). For brevity the claim rejections will not be repeated here (please refer to previous Office Action of 04 June 2004).

9. Claims 8, 12, 19, 69, 73 and 80 are rejected under 35 U.S.C. 103(a) as being unpatentable over **Hicks** (USPN 6,654,954) in view of **Foster** (US Pub. 2002/0078071).

For brevity the claim rejections will not be repeated here (please refer to previous Office Action of 04 June 2004).

Response to Arguments

10. Applicant's arguments filed 30 November 2004 have been fully considered but they are not persuasive. Applicant argues no database present in the **Hicks** reference. This is untrue. Under the broadest reasonable interpretation of the claim language, "database" is simply an entity recording information. As originally rejected, the file header provides this. The "data structure" is a component within the file header, which contains an attribute. Further, Applicant's new language concerning modification is rejected much the same way as the original claim, which required a form of generation or in other words modification. Thus, having addressed the raised issues, the claim rejections are maintained substantially as before.

Conclusion

11. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 2193

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
